"Consider the colors found in your roof and permanent features, like stone and brick, when choosing your colors."

— KIM PERRY,
PPG COLOR EXPERT

 Designates a color that will achieve one coat hide & coverage only when tinted into PPG TIMELESS® Interior or Exterior Paint + Primer.

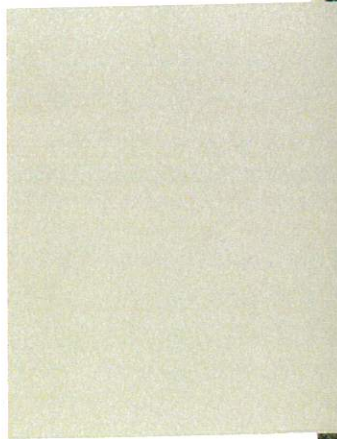

NEUTRAL & CONTEMPORARY

Gray in an exterior color scheme creates a modern, contemporary look. Using grays with brown undertones is an excellent way to tie in the natural elements of the home, such as red brick, stone or wood.

 **GRAY FLANNEL**
PPG1013-6 | THD-B5

Grays with hints of blue, black and purple accentuate natural stone elements of the home and create a calming and cooling effect. These casual grays pair well with blue-blacks for doors or shutters, and light grays or white for trim and fascia.

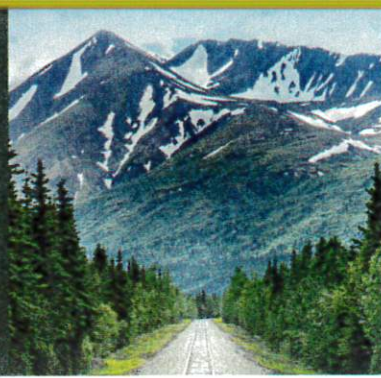

"Find a gray you love in your stone, then use that for the body color and you won't be disappointed."

— MISTY YEOMANS, PPG COLOR EXPERT

 Designates a color that will achieve one coat hide & coverage only when tinted into PPG TIMELESS® Interior or Exterior Paint + Primer

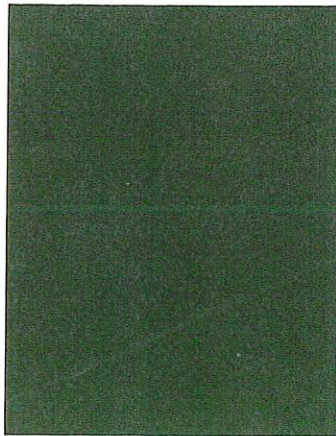

BOLD & DARING

Willow Springs (door & trim), Warm Mahogany (chairs)

Don't be afraid to go dark on the exterior of your home. This trending look is easily achievable with the right balance of colors. Rich browns with undertones of green, red or yellow help to anchor a bold, dark green and create a lasting impact.
